Marking guidelines

- Recommendations for question word counts and timings are advisory only. Candidates should not be penalized if they exceed or fall short of advisory word counts, unless the quality of the response is affected, eg, by a lack of development of ideas / analysis etc.
- If a candidate uses bullets, Criterion B will be awarded a maximum of **(2 marks)**.
- Where a section of text is specified in a question, candidates' responses should focus on those specific sections/lines/paragraphs.
- Where exemplar responses appear in the assessment grids, the examples given illustrate the top end of each band.
- For Criterion A, bullet i, where candidates are asked to analyse/interpret the writer's use of language, 'use of language' can encompass content, context, language, structure, technique and style. However, it is not expected for the candidate to explore all of these aspects in one response. The aspects explored will depend upon the candidate's own interpretation of the specific text and question.
- Use of a '/' indicates alternative acceptable points and not a list of expected responses.
- Use of brackets indicates additional detail that is not required for the mark.
- Where the markscheme instructs to 'Reward all valid points' examiners should look to reward all relevant points including and beyond the suggested responses. When you have indicative content next to the descriptors of a criterion, you should award levels which best fit with descriptors rather than indicative content. The indicative content is for reference only.
- For the compare and contrast question candidates are required to write about **both** texts. If students only write about one text, they cannot go beyond **(2 marks)** for Criterion A and beyond **(2 marks)** for Criterion B.
